**Welcome 2 More FSR Stroke Centers
FSR 8th Annual Meeting- Session I
Congratulations FSR Hospital Award
Winners**

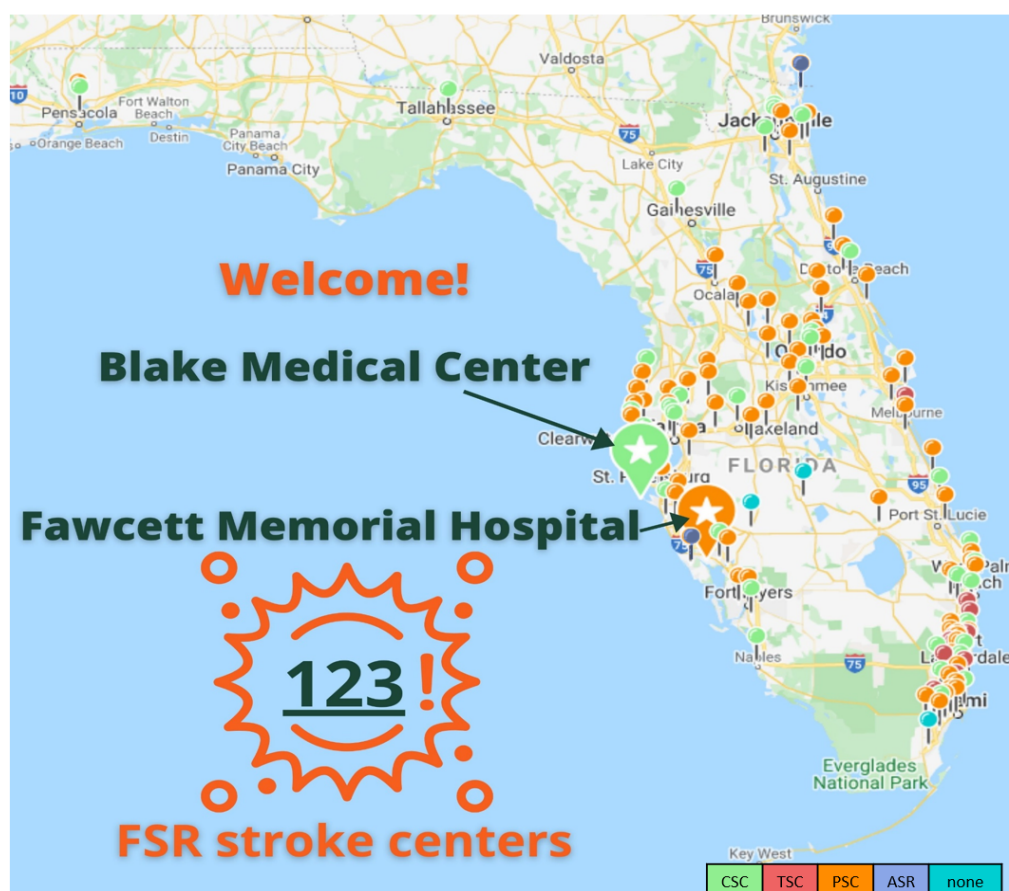

Florida Stroke Registry 2020 Legislative SPONSORS

Thank you!

We enthusiastically report a successful 2020 legislative session! Thanks to the guidance of the UM Government Relations team and the sponsorship of Representative Ana Maria Rodriguez and Senator Gayle Harrell, the FSR has been funded for fiscal year 2020-2021. The University of Miami Florida Stroke Registry (UM FSR) team is grateful for this funding support which allows us to continue our efforts in making Florida one of the most organized states in stroke care in the nation. We look forward to continue working with, and for, our multi-disciplinary stakeholders. Thank you, to the (123!) Florida stroke centers whose collaboration is integral to the success of the quality of care program established through the FSR. Let's continue doing great things for Florida!

Two More Florida Stroke Centers Join the FSR

FSR 8th Annual FSR Stakeholder Meeting: Session I- Acute Stroke Phase of Care

On September 17th, 2020, the UM FSR team held the first session of three of its "deconstructed" annual VIRTUAL meeting. The two hour zoom call, focused on the FSR and acute stroke phase of care, was well attended with over 114 FSR stakeholders joining (...and staying with us throughout!). Speakers for our first event included the FSR Program Director Dr. Ralph L Sacco; Dept. of Health FSR Program Officer Tara Hylton; FSR investigators Drs. Negar Asdaghi and Jose G. Romano of the University of Miami; FSR collaborators Diane Foster of the American Heart Association, Dr. Alexis Simpkins of the University of Florida, and Dr. Mauricio Concha of Sarasota Memorial Health Care System and Intercoastal Medical Group. After reviewing updates from the FSR, our guest speakers discussed various topics including research on COVID-19 and stroke; the implementation of the TargetStroke III QI Initiative; the application of new guidelines during the early management of ischemic stroke; and the implications of the WAKE-UP and EXTEND stroke trials. The session ended with the announcement of three FSR Hospital Awards Winners (featured below).

Session I: Florida Stroke Registry Updates on Acute Stroke Care

Ralph L. Sacco, MD MS

"Acute Ischemic Stroke in the Era of COVID19"

Negar Asdaghi, MD MS
Associate Professor of Neurology,
Cerebrovascular Division
Department of Neurology
University of Miami Miller School of Medicine

Session I: Acute-Hospital Stroke Care: Latest Research Findings and Best Practices

"Acute Ischemic Stroke—Applying New Guidelines during Early Management"

Alexis Simpkins, MD PhD MSCRF FAHA
Assistant Professor of Neurology
Neurovascular Division
Department of Neurology, College of Medicine
University of Florida

Session I: Acute-Hospital Stroke Care: Latest Research Findings and Best Practices

Dianne Foster, BSN MBA
Regional Director,
Quality Improvement
Quality, Outcomes Research & Analytics
American Heart Association

Session I: Acute-Hospital Stroke Care: Latest Research Findings and Best Practices

"Implications of the WAKE-UP and EXTEND Trials For Your Hospital Stroke Program"

Mauricio Concha, MD MHS
Medical Director, Stroke Program
Sarasota Memorial Health Care System and Intercoastal Medical Group

Session I: Acute-Hospital Stroke Care: Latest Research Findings and Best Practices

The highlights from the first session exemplify the important work being done by members of the FSR community, the ongoing opportunities for collaboration and continued research, as well as the excellent care being provided at our FSR hospitals.

If you missed the first session, don't fear. Our next session, focused on the pre hospital phase of care, promises to be as interesting and informative as the first. We hope you will join us ([RSVP HERE](https://floridastrokecollaboration.org/8th-annual-florida-stroke-registry-annual-meeting/), or copy the address: <https://floridastrokecollaboration.org/8th-annual-florida-stroke-registry-annual-meeting/>). After you've RSVP'd and then created an account at the Florida Stroke Collaborations Event Hub platform, you'll be able to access the meeting agenda, speaker bios, pre/post-test for professional credits, FSR hospital award winners, as well as social media links at the Event Hub. The application may be downloaded onto your smart phone and/or viewed on-line. Although the Event Hub app is not required to join our meeting, you must log-in to the Event Hub to initiate professional credits. Please join us during the meeting and before at the Event Hub where we can actively engage and practice safe physical distancing.

- October 15th, 10:00am-noon, Session II: Pre- Hospital Phase of Care
- November 12th , 10:00am-noon, Session III: Post-Hospital Phase of Care

FSR 2020 Hospital Award Winners

The FSR is proud to present the three hospital winners of The Most Improved Defect Free Care for 2018-2019. We thank them for their outstanding work and dedication!

Get ready for the next set of FSR Hospital Award Winners. ANNOUNCED at the October 15th 8th Annual FSR Stakeholder Meeting Session II. See you there!
